

Daily Scrum or Standup Meeting

Team name: Team 8

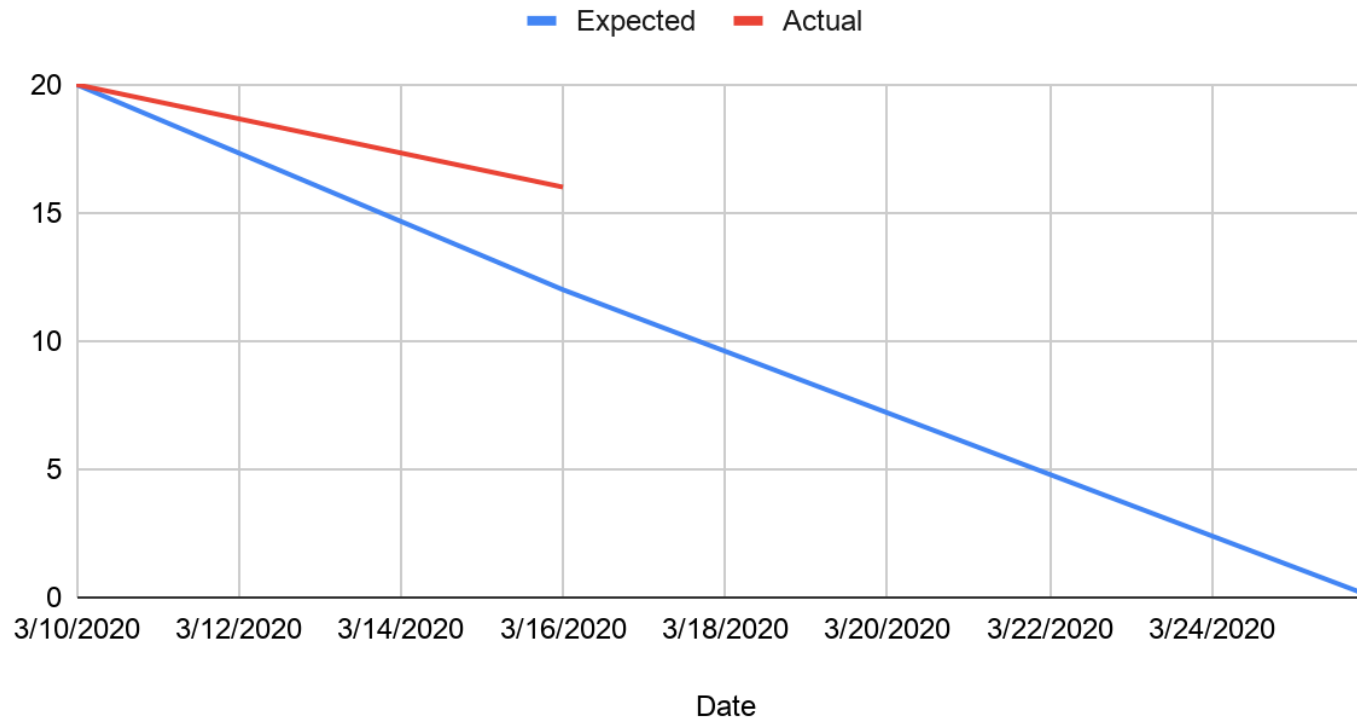

Scrum Master: Connor Geslin

Date: 3/17/2020

Team Member	What did you do since the last scrum?	What do you plan to do before the next scrum?	What obstacles do you have?
Sally D.	Finish at least the two auction landing pages and make them look nice and have pretend skeletons for the unmade API.	Make a static auction page with a title, location and list of items which will eventually link to a detail view of an item.	Other classwork Tailwind and styling stuff:(
Connor G.	Talk with Hunter, understand the project better and get help with membership kicking/banning. Wrote unit tests for all methods created.	Finish ban unit test, work on my other issues which are assigned.	life, building a pc, a desire to excel in my studies, and other stuff.
Hunter H.	Finish the Auction Membership backend/database.	Items Backend	Everything being in flux
Colton H.	<ul style="list-style-type: none"> ● Make working tests ● Make migrations ● Add support for queries ● Started Bid api 	<ul style="list-style-type: none"> ● Make working a skeleton api for bidding ● Make database skeleton for Bidding ● Make tests for Bidding DataBase 	<ul style="list-style-type: none"> ● Syntax ● ignorance
Jace L.	Finished what I could of the authorization api, and wrote tests for the authorization api	Start on the auction api. Coordinate with colton and connor and the others about how the auction api works into things.	ditto ^ knowledge of what to do with correct/incorrect data. Figuring out how to use the testing system was very difficult.
